About the Progress Report

- The Davis Polk Dodd-Frank Progress Report is a monthly publication that uses empirical data to help market participants and policymakers assess the progress of the rulemaking and other work that has been done by regulators under the Dodd-Frank Act. **Access previous reports on our website.**

- The Progress Report was developed using information from Davis Polk’s subscription-based Regulatory Tracker™ product. For more information on the Regulatory Tracker, please contact **tracker@davispolk.com** or **view our brochure**.

- Required, proposed, final and missed rulemakings and studies are counted based on Davis Polk’s tally of statutory requirements in the Davis Polk Regulatory Tracker™. An agency’s rule release may satisfy several statutorily required rulemakings.

- Where multiple agencies are required to issue a rule or study jointly, the requirement appears in each of their totals, which we believe most accurately reflects the staff burden on regulatory agencies.

- The term “Bank Regulators” includes the Board of Governors of the Federal Reserve, the FDIC and the OCC.
