Martindale-Hubbell Information and Research

The *Martindale-Hubbell Law Directory* originally consisted of two separate publications -- the *Martindale Directory* (first published in 1868), and *Hubbell’s Legal Directory*. The first edition of the *Martindale-Hubbell Law Directory*, which appeared as a two-volume set in 1931, featured one-line and full biographical profiles of attorneys and law firms, a digest of the collected laws from each state, and court calendars. Today, *Martindale-Hubbell* also provides information on law firms, corporate law departments, U.S. government lawyers and international law firms, as well as a nation-wide index ordered by areas of practice.

*Martindale-Hubbell* “professional biographies,” or lawyer listings, are brief entries which usually include peer review ratings for legal ability and general ethical standard. They are arranged geographically by state and city, and may include: 1) the year of birth, 2) year of admission to the bar, 3) college and law school attended, 4) law firm affiliation.

Practice profiles for law firms may be found in the latter half of each volume. These contain useful information such as an attorney’s professional activities and memberships, publications, awards, and representative clients, as well as details concerning the firm itself.

Current *Martindale-Hubbell* information, including the *Martindale-Hubbell International Law Directory*, is available online at [martindale.com](http://martindale.com) and at [lawyerlocator.com](http://lawyerlocator.com). Most annual editions of the Martindale Directories are available, in either paper or microfiche, here at the Arthur W. Diamond Law Library.
